

Center for Information Management Managing Data for a Corporate Perspective

25 August 1992

Agenda

- The DoD Problem
- Corporate Information Management Process Support
- What is Different Now?
- DoD Data Administration Framework
- Elements of the DoD Data Administration Program
- Baseline and Direction of Data Standardization in DoD
- Future of DoD Administration

The DoD Problem

- Uncertain Threat Environment
- Reduced Force Structures and Budgets
- Outdated Business Methods and C3I Processes
- Obsolete/Redundant Information Systems

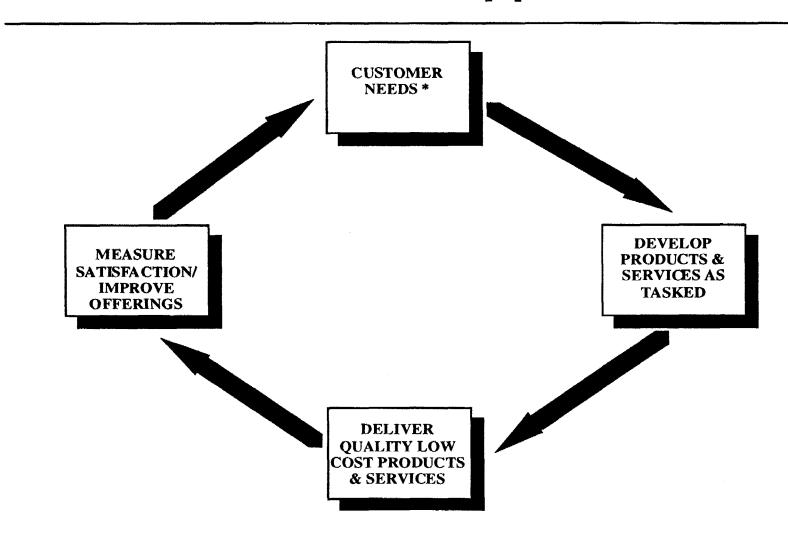

DoD IM / IT Culture Change

- Process First / Technology Second
- Provide More "Purple" Support
- Increase Centralized Support of Information Management (IM) / Information Technology (IT)
- Move to Customer-Provider, Fee-Based Paradigm

Center for Information Management

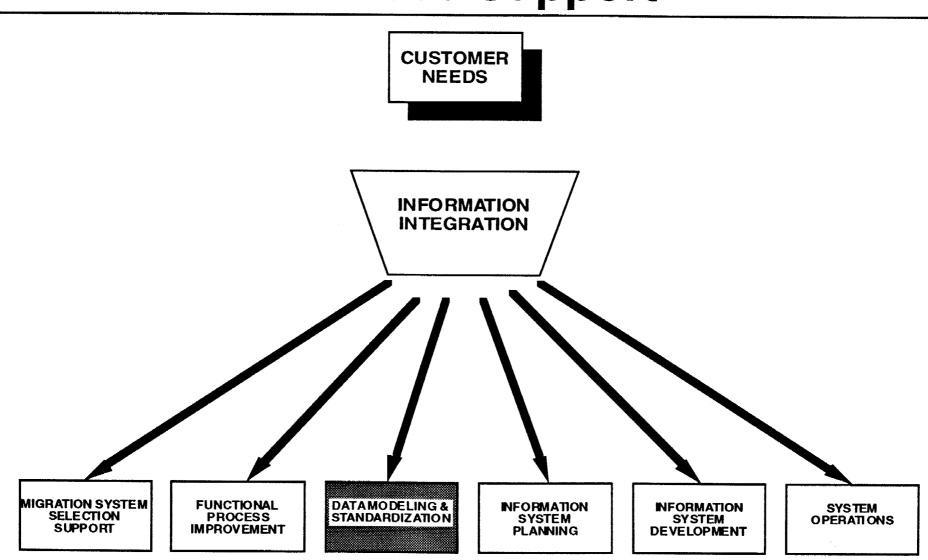

- Agent for Change
- Information Technology Service Provider
- Technical Integrator

Center Approach

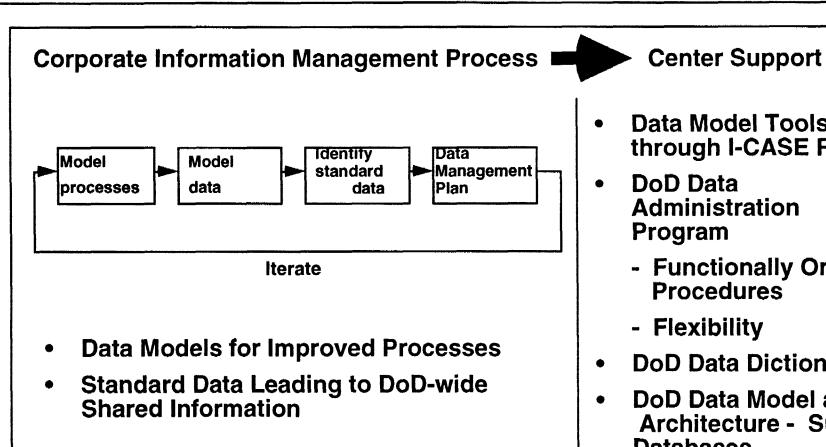

^{*} The corporate Info rmation Management process defines the customer's immediate need for technical tools, services and assistance.

Corporate Information Management Process Support

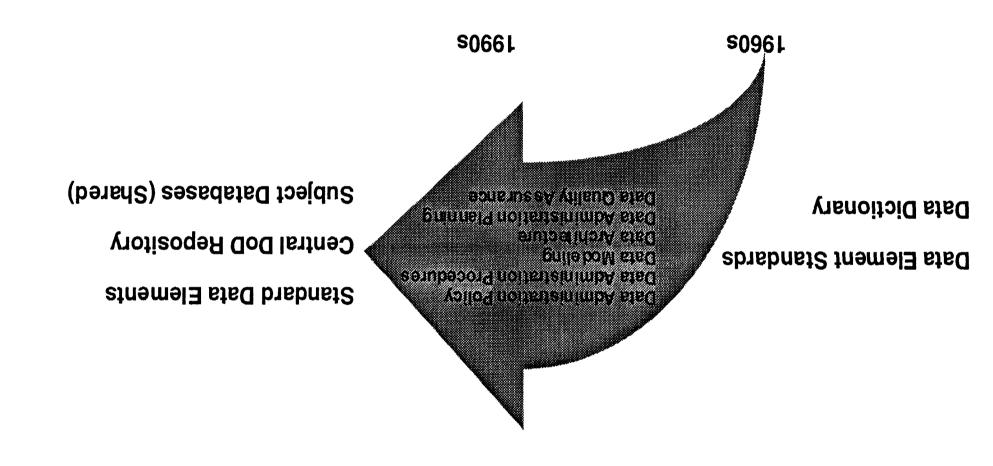

Data Modeling and Standardization

- **Data Model Tools** through I-CASE RFP
- Administration
 - Functionally Oriented
- **DoD Data Dictionary**
- **DoD Data Model and Architecture - Subject Databases**
- **Expert Technical Assistance**

What Is Different Now?

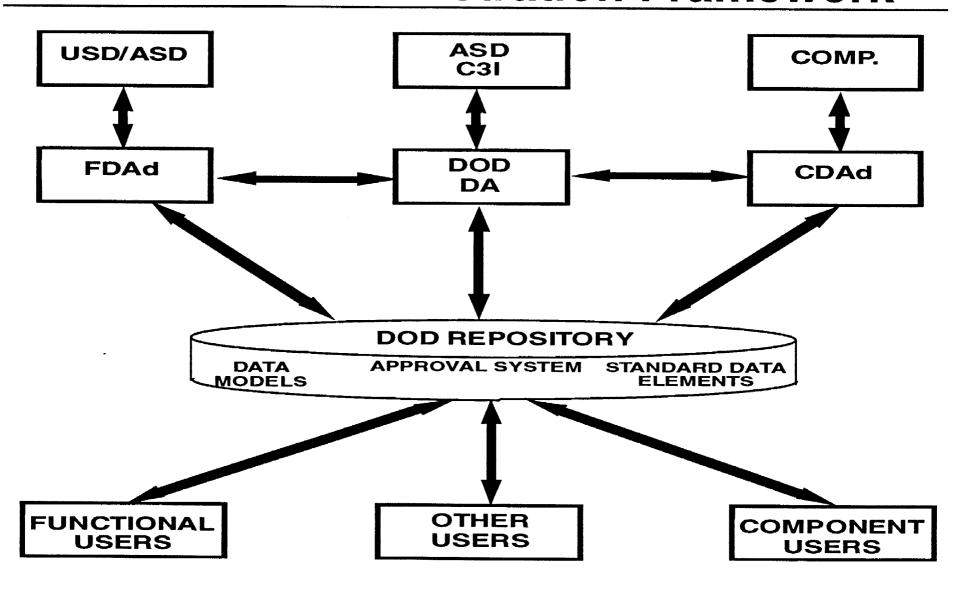

DoD Data Evolution

CATEGORY DA Policy	THEN Service/Agency	NOW DoD	ACTION(s) DODD 8320.1, 9/26/91 Top Management Support
DA Procedures	Service/Agency	DoD	 DoD 8320.1-M (Draft) ConOps Procedures Program Administration Technical Infrastructure Operational Services Glossary
Data Standards	DoD	DoD	 DoD 8320.1-M-1 (Draft) for Model-Based Standard Data Elements Legacy Data Elements for Analysis

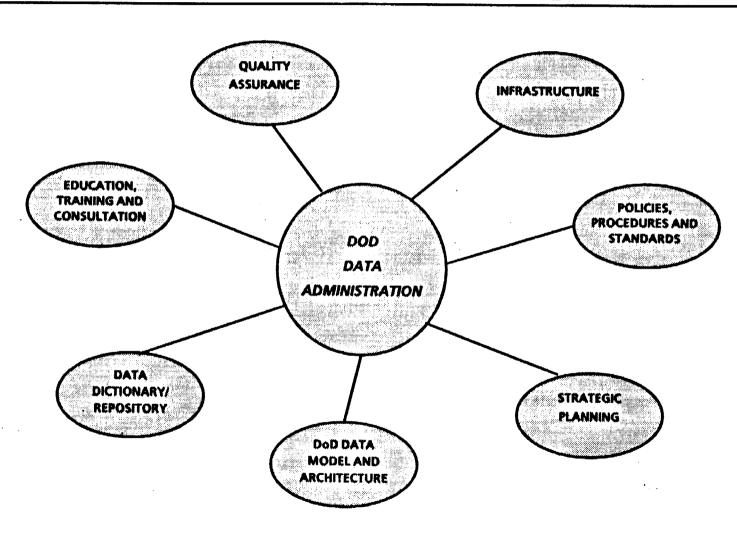

DoD Data Evolution (Continued)

CATEGORY Data Dictionary	<u>THEN</u> DoD	NOW DoD	ACTION(s) DDRS IOC 8/92 Migrate Repository to Open Systems Expedite Population
Data Modeling	Service/Agency	DoD	 DoD Data Model and Architecture IDEF1X
DA Planning	Service/Agency	DoD	DA Strategic Plan (Annual)DA Implementation Plans
Data Quality Assurance	Service/Agency	DoD	 Revisions to AIS Life Cycle/MAISRC Review Guidance in DoD 8320.1-M

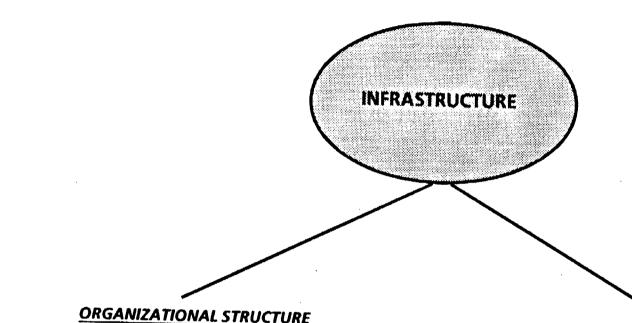

DoD Data Administration Framework

Elements of the DoD Data Administration Program

Infrastructure

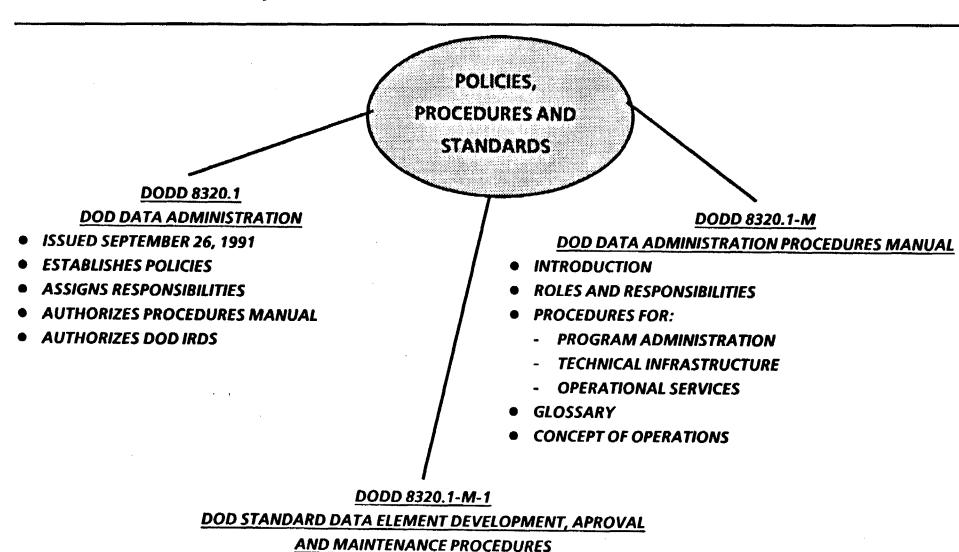

ORGANIZATIONAL STRUCTURE

- **ESTABLISHED UNDER DODD 8320.1**
- DOD DATA ADMINISTRATION FRAMEWORK
- INSTITUTIONALIZED WITH DOD DATA ADMINISTRATION STRATEGIC PLAN

DOD DATA ADMINISTRATION COUNCIL

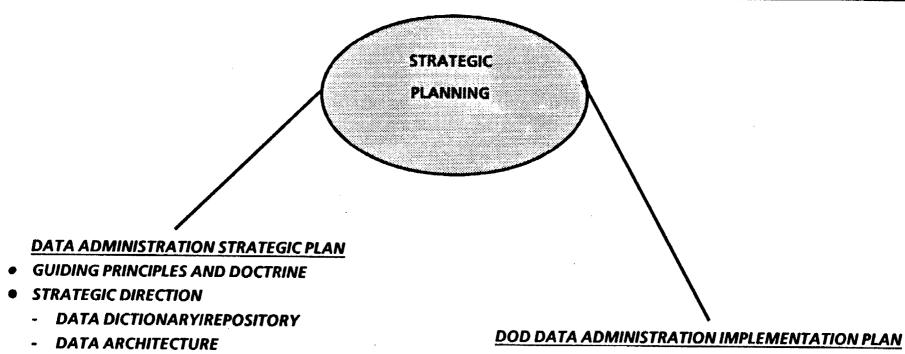

- CHARTERED AND CHAIRED BY CIM
- FDAICDA REPRESENTATIVES DESIGNATED
- **CONVENED JANUARY 1992**
- ESTABLISHED AS ISSUE AND EXCHANGE FORUM
- PROVISION FOR SUBGROUPS

Policies, Procedures and Standards

- MAY 1992 DRAFT IN FORMAL REVIEW
- EMPHASIS ON DATA RE-DESIGN
- JOINT SERVICEIAGENCY WORKGROUP

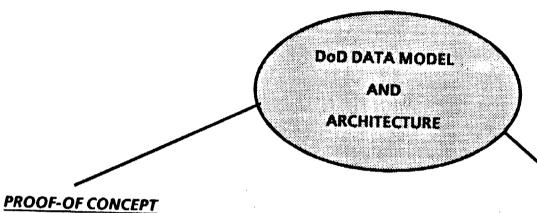

Strategic Planning

- LEGACY SYSTEMS MIGRATION
- EDUCATION AND TRAINING, ETC.
- RESOURCE REQUIREMENTS (POM)
- PROGRAM ASSESSMENTS
- FDAdiCDAd DA IMPLEMENTATION PLAN
 - ESTABLISH DATA BASELINE
 - PRELIMINARY DASP INPUT

- DEVELOPED BY ARMY EA UNDER "QUICK START"
- UPDATED TO REFLECT PROGRESS
- INCORPORATION INTO DA STRATEGIC PLAN

DoD Data Model and Architecture

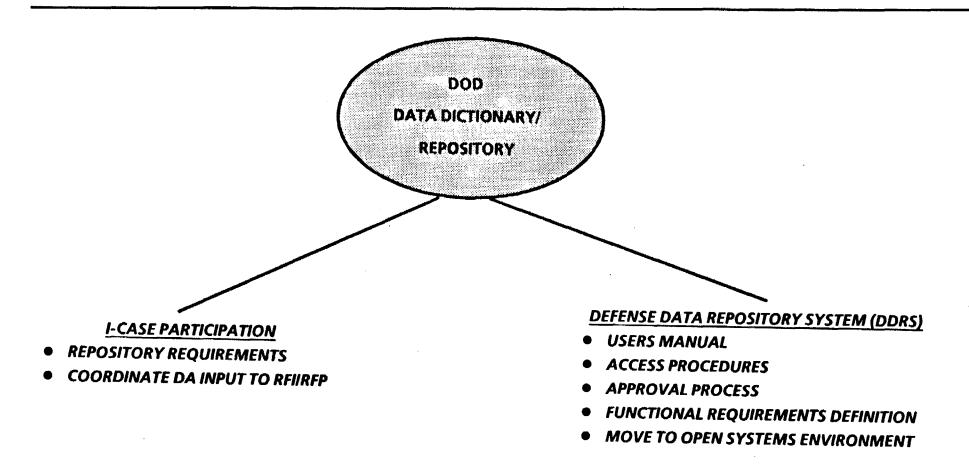

- MANAGEDIMONITORED BY CENTER FOR DATA ADMINISTRATION OPERATIONS
- SERVICEIAGENCY PROJECTS
 - DATA MODEL DEVELOPMENT
 - INTEGRATION ANALYSIS
 - DA SURVEY
 - REPOSITORY REQUIREMENTS
- TECHNICAL EVALUATIONS
 - MODEL INTEGRATION
 - METHODS AND TOOL IV&V

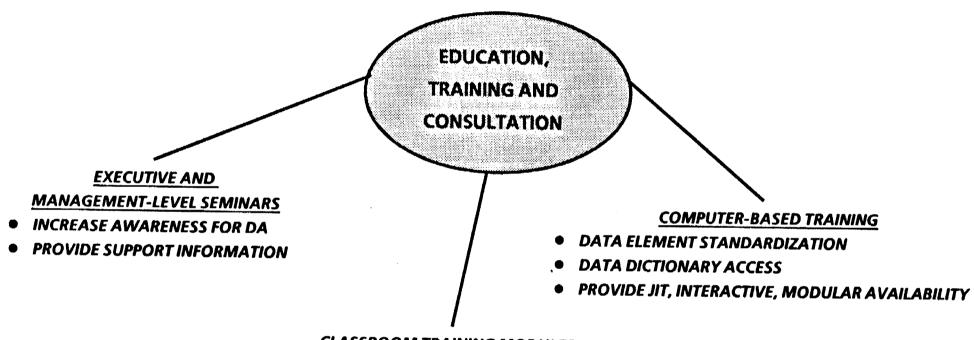

DOD DATA MODEL AND ARCHITECTURE

- ESSENTIAL FOR DATA STANDARDIZATION
 - PRIME WORDS
 - RESTRICTED VOCABULARY
- INTEGRATED, SUBJECT DATABASE FOCUS
- ROADMAP FOR LEGACY SYSTEMS MIGRATION
- DAC SUBGROUP (DMIOS) CHARTERED TO INTEGRATE EXISTING DATA MODELS
- REVERSE ENGINEER DATA STRUCTURES (MIGRATION SYSTEMS)

Data Dictionary/Repository

Education, Training, and Consultation

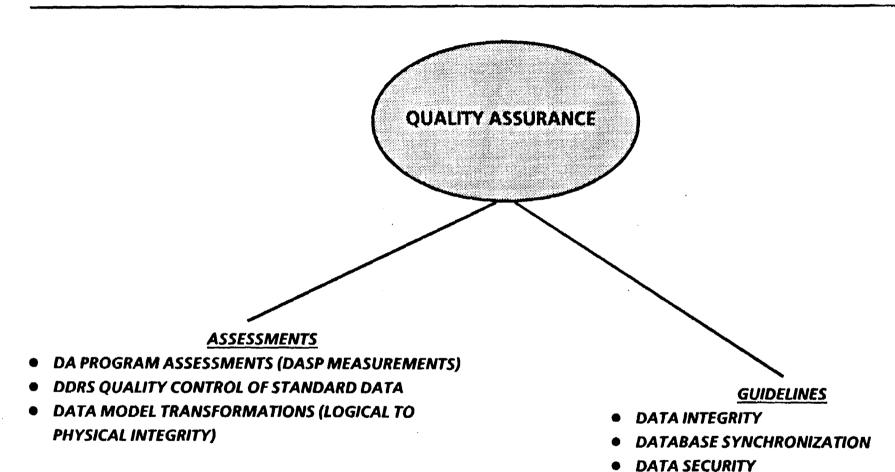

CLASSROOM TRAINING MODULES

- POLICY, PROCEDURES AND STANDARDS
- DATA ELEMENT STANDARDIZATION
- GENERAL CONCEPTS OF DA
- MODELING
- DATA DICTIONARY ACCESS

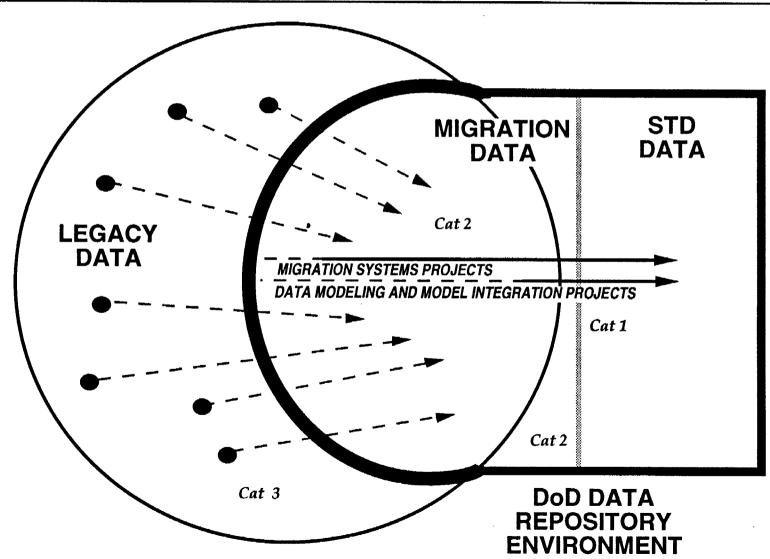

Quality Assurance

LIFE CYCLE MANAGEMENT CHECKPOINTS

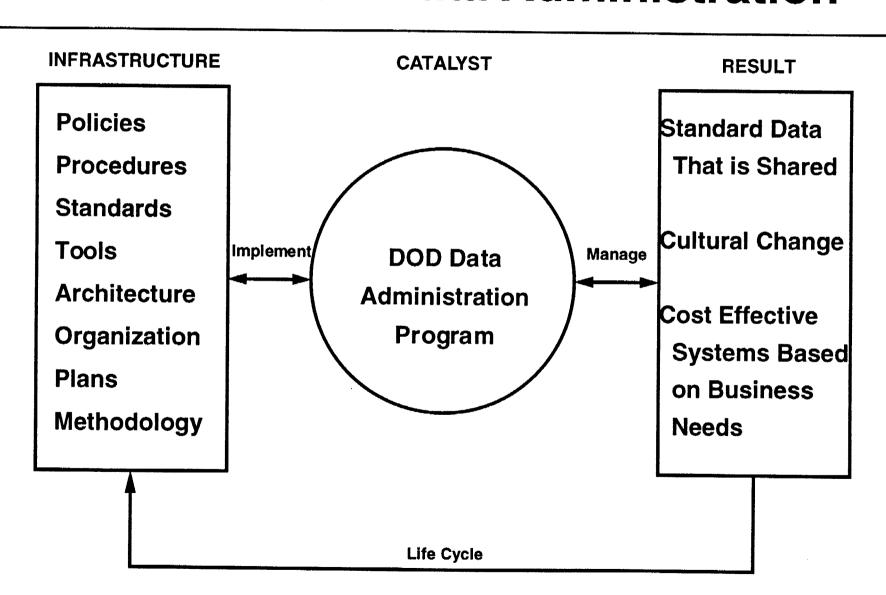

Baseline and Direction of Data Standardization in DoD

(Including Current Data Repository Efforts)

Future of DoD Data Administration

Summary

The Center for Information Management's Data Administration Role is to:

- Promote the Management of Information as a Resource in DoD
- Promote the Efficient Use and Access to Information

Background Material

Roles & Responsibilities

- USD/ASD
- ASD C3I
- Component
- DoD DA
- FDAd
- CDAd

USD/ASD Roles & Responsibilities

- Set Functional Policy
- Integrate within Function
- Designate FDAd
- Plan and Provide DA Resources
- Manage IAW DoD DA Policy

ASD C3I Roles & Responsibilities

- Set DoD DA Policy
- Integrate across Functions
- Resolve Data Issues
- Review/Approve DoD DA Plan
- Designate DoD DA

Component Roles & Responsibilities

- Manage IAW DoD DA Policy
- Integrate within Component
- Designate CDAd
- Plan and Provide DA Resources

DoD DA Roles & Responsibilities

- Manage DoD DA Program
- Consolidate and Submit DoD DA Plan
- Chair the DA Council
- Coordinate Data Issues for Resolution
- Publish DA Procedures and Standards
- Develop/Maintain Overall DoD Data Architecture
- Approve Data Elements as DoD Standard
- Maintain DoD Repository

FDAd Roles & Responsibilities

- Develop Designated Functional Data Models
- Submits Recommendation for Approval/Disapproval for Candidate Data Elements to DoD Data Administration
- Submits Candidate Data Elements for Approval Processing
- Representative to DA Council
- Develop DA Plan for Functional Area
- Ensure Data Standards Compliance

CDAd Roles & Responsibilities

- Technical Review of Data Elements for Functional Approval
- Submits Candidate Data Elements for Approval Processing
- Representative to DA Council
- Support Functional Requirements
- Develop DA Plan for Component
- Ensure Data Standards Compliance
